

APPLICATION DEVELOPMENT & MOBILE COMPUTING

Whether it's in the Cloud, on local platforms or on mobile devices, IntelliDyne's expert development team designs, builds and maintains a variety of Information Technology solutions. Our broad experience in object-oriented, n-tier and enterprise architectures, agile development and other facets of Information Technology has given IntelliDyne a solid foundation to deliver high impact solutions quickly. IntelliDyne reduces the complexity of deploying applications across multiple mobile platforms, designing context-aware applications.

Aligned with Government CIOs' missions and goals, IntelliDyne's Application Development and Mobile Computing solutions deliver concrete and measurable business value at each and every step. As your trusted advisor, our consultants ensure that your applications enhance enterprise productivity, promote efficient communication & collaboration and secure access – anywhere, anytime, anyplace.

When change is the only constant, IntelliDyne delivers results to our clients with agility and expertise that are second to none. Our DNA is made up of a unique blend of attributes, creating a full client experience with predictable outcomes. Every time.

- ▶ Adaptive to Changing Requirements
- ▶ Higher Initial Quality
- ▶ Efficient Communication & Collaboration

IntelliDyne, LLC is a consulting firm that enables better business performance through innovative technology solutions. We manage public sector programs that deliver higher operational efficiency and measurable value to clients. We advise, develop, and execute effective solutions in Information Assurance/Cyber Security, Cloud Computing, Application Development and Mobile Computing, Analytics, Business Process Management, Data Center Consolidation, Enterprise Collaboration and Enterprise Infrastructure Management.

Clients Demand. IntelliDyne Delivers.

"Our program was extremely pleased with the results of the IntelliDyne Intranet development project; namely the team fast-tracked the migration effort and completed the tasks almost one year ahead of schedule, without sacrificing quality. This achievement earned acknowledgement from both our Branch Chief and FEMA's CIO. It was a highly impressive accomplishment! To me, it is indicative of the team's commitment to performance and understanding of the critical nature of our work."
