

CLOUD COMPUTING

With Cloud first goals at the forefront of technology decisions, selecting the appropriate path to the Cloud requires the right blend of environment knowledge and technical adaptability. IntelliDyne's experienced Cloud consultants and engineers help you assess, procure, and architect the Cloud solution that best fits your agency's unique environment. Whether you need to start with Service-Oriented Architecture (SOA) or migrate to a private, public or hybrid cloud solution, your agency can benefit from IntelliDyne's proven expertise in assessing and architecting your path to the Cloud.

Aligned with Government CIOs' missions and goals, IntelliDyne's Cloud Computing solutions deliver concrete and measurable business value at each and every step. As your trusted advisors, our consultants and engineers create clear decision criteria to optimize your technology investment, align your technology to mission critical objectives, and empower a faster deployment path to any Cloud solution. Providing guidance from start to finish, IntelliDyne's clients rely on our experience in procurement assistance to ongoing management challenges to ensure Cloud ROI targets are achieved.

When change is the only constant, IntelliDyne delivers results to our clients with agility and expertise that are second to none. Our DNA is made up of a unique blend of attributes, creating a full client experience with predictable outcomes. Every time.
